2. Key Functions

3. Before Use the device

3.1 Removing the belt clip
Before you insert any batteries into the device, first remove the belt clip away.

3.2 Remove the battery compartment door
Please Open it with a screwdriver. Note: Children under Age of 12 should open the screws under the antennas.

3.3 Installing the Batteries
1. Remove the battery compartment door.
2. Insert 3 AAA batteries(lit not included) for each radio.
3. Position the batteries correctly, especially the positive and the negative.
4. Replace the battery cover.
5. Close the screw with a screwdriver.
Note: Children under Age of 12 should open the screws under their supervision.

4. 2. How to use your Walkie Talkies
4.1 Turning on/off
2. Press and hold the PTT button for 3 seconds to turn it on/off, then you will hear a beep sound.
4.2 Selecting a Channel
In order to speak to someone, all your radios must be set to the same channel.
Switch to press the button "CH", the "L1" or "L2" will flash. If "L1" flash, it is in Channel 1. If "L2" flash, it is in Channel 2. If "L1" and "L2" both flash, then it is in Channel 3. Note: Do not pull further within 6 seconds, it will reset to STANDBY mode.

4.3 Talking and Listening:
If you press and hold the button “PTT/CALL”, it is Talking. Release the “PTT/CALL” button when you have finished transmitting. For the other one, if a signal is received, it is Listening.

8. Other Information

9. Warranty

10. Technical Support

For maximum clarity, hold the radio one inch away from your mouth and speak directly into the microphone. Do not cover the microphone while talking.

Note:
1. Do not use the radio closer than five feet apart.
2. The talking range could reach up to 4km, which is calculated based on an unobstructed line of sight and under optimum conditions. However, actual range will vary depending on terrain and conditions and is often less than the maximum possible.
3. Usually your actual range will be limited by several factors, but not limited to: terrain, weather conditions, electromagnetic interference and obstructions.

4.4 Talk Confirmation Tone
Also called an Ringer, which sounds to indicate the end of a PTT transmission.

4.5 Sending a Call Tone Quickly
Your radio is equipped with a call tone. To transmit a call tone, press the PTT button once quickly. Both the talker and listener could hear that.
