WEIGHT AND SIZE
Model RT49
Weight: 140g
Size: 110mm x 56mm x 21mm

Display Screen Guide

DISPLAY SCREEN

1. Under-Start Transmission
2. VOX
3. Microphone
4. Battery Low
5. Battery Status
6. Scan
7. Monitor
8. PTT
9. Weather Channel
10. Battery Icon

SPECIAL FEATURES

1. Two-Way Radio
2. VOX
3. Weather Channel
4. Scan
5. Monitor
6. Keypad Lock
7. Battery Icon
8. PTT
9. Under-Start Transmission

WEATHER RECEIVE

1. Weather Channel
2. Scan
3. Monitor
4. PTT
5. VOX

WEATHER CHANNEL FREQUENCIES

1. WX1
2. WX2
3. WX3
4. WX4

WARNING

1. Do not disassemble the battery pack. Call authorized Retevis service centers.
2. Do not use adapters that are not authorized by Retevis.
3. Do not use radio near water or in damp environments.
4. Do not attempt to repair the radio yourself.
5. Do not drop the radio or subject it to severe shocks or impact.
6. Always use the original accessories that are included with the radio.
7. Keep the radio away from open flames.
8. Do not place metal objects on the radio.
9. Do not expose the radio to extreme temperatures.
10. Do not use the radio near strong magnetic fields.
11. Do not use the radio near other electronic devices.
12. Do not use the radio near high-voltage power lines.
13. Do not use the radio near sources of static electricity.
14. Do not use the radio near high-voltage power lines.
15. Do not use the radio near sources of static electricity.
16. Do not use the radio near high-voltage power lines.
17. Do not use the radio near sources of static electricity.
18. Do not use the radio near high-voltage power lines.
19. Do not use the radio near sources of static electricity.
20. Do not use the radio near high-voltage power lines.
21. Do not use the radio near sources of static electricity.
22. Do not use the radio near high-voltage power lines.
23. Do not use the radio near sources of static electricity.
24. Do not use the radio near high-voltage power lines.
25. Do not use the radio near sources of static electricity.
26. Do not use the radio near high-voltage power lines.
27. Do not use the radio near sources of static electricity.
28. Do not use the radio near high-voltage power lines.
29. Do not use the radio near sources of static electricity.
30. Do not use the radio near high-voltage power lines.
31. Do not use the radio near sources of static electricity.
32. Do not use the radio near high-voltage power lines.
33. Do not use the radio near sources of static electricity.
34. Do not use the radio near high-voltage power lines.
35. Do not use the radio near sources of static electricity.
36. Do not use the radio near high-voltage power lines.
37. Do not use the radio near sources of static electricity.
38. Do not use the radio near high-voltage power lines.
39. Do not use the radio near sources of static electricity.
40. Do not use the radio near high-voltage power lines.
41. Do not use the radio near sources of static electricity.
42. Do not use the radio near high-voltage power lines.
43. Do not use the radio near sources of static electricity.
44. Do not use the radio near high-voltage power lines.
45. Do not use the radio near sources of static electricity.
46. Do not use the radio near high-voltage power lines.
47. Do not use the radio near sources of static electricity.
48. Do not use the radio near high-voltage power lines.
49. Do not use the radio near sources of static electricity.
50. Do not use the radio near high-voltage power lines.
51. Do not use the radio near sources of static electricity.
52. Do not use the radio near high-voltage power lines.
53. Do not use the radio near sources of static electricity.
54. Do not use the radio near high-voltage power lines.
55. Do not use the radio near sources of static electricity.
56. Do not use the radio near high-voltage power lines.
57. Do not use the radio near sources of static electricity.
58. Do not use the radio near high-voltage power lines.
59. Do not use the radio near sources of static electricity.
60. Do not use the radio near high-voltage power lines.
61. Do not use the radio near sources of static electricity.
62. Do not use the radio near high-voltage power lines.
63. Do not use the radio near sources of static electricity.
64. Do not use the radio near high-voltage power lines.
65. Do not use the radio near sources of static electricity.
66. Do not use the radio near high-voltage power lines.
67. Do not use the radio near sources of static electricity.
68. Do not use the radio near high-voltage power lines.
69. Do not use the radio near sources of static electricity.
70. Do not use the radio near high-voltage power lines.
71. Do not use the radio near sources of static electricity.
72. Do not use the radio near high-voltage power lines.
73. Do not use the radio near sources of static electricity.
74. Do not use the radio near high-voltage power lines.
75. Do not use the radio near sources of static electricity.
76. Do not use the radio near high-voltage power lines.
77. Do not use the radio near sources of static electricity.
78. Do not use the radio near high-voltage power lines.
79. Do not use the radio near sources of static electricity.
80. Do not use the radio near high-voltage power lines.
81. Do not use the radio near sources of static electricity.
82. Do not use the radio near high-voltage power lines.
83. Do not use the radio near sources of static electricity.
84. Do not use the radio near high-voltage power lines.
85. Do not use the radio near sources of static electricity.
86. Do not use the radio near high-voltage power lines.
87. Do not use the radio near sources of static electricity.
88. Do not use the radio near high-voltage power lines.
89. Do not use the radio near sources of static electricity.
90. Do not use the radio near high-voltage power lines.
